Programmer

Oct 2021 - Mar 2024

Integra Software Services, Puducherry, India

- Developed full-stack web applications using React, Node.js, and PostgreSQL

- Designed and optimized database schemas, improving query performance by 25%
- Built publication management tools processing 500+ manuscripts monthly
- Collaborated in Agile environment, consistently delivering sprints on schedule

KEY PROJECTS

Quivio CRM Application

Backend Developer

Built backend for marketing automation platform enabling customer segmentation, campaign management, and two-way communication for 5000+ business users

Technologies: Nest.js, TypeScript, PostgreSQL, Redis, Microservices

Lyca Mobile App

Frontend Developer

Developed responsive UI components with CMS integration, achieving 40% improvement in page load times through performance optimization

Technologies: Next.js, TypeScript, Material UI, REST APIs

iRights Application

Full Stack Developer

Created publication rights management system handling digital assets and permissions for 100+ publishers

Technologies: React, Node.js, MS SQL Server, REST APIs

Author Management Tool

Full Stack Developer

Designed manuscript management system for author and affiliation data, reducing data entry time by 50%

Technologies: React, Node.js, PostgreSQL, REST APIs

EDUCATION

Bachelor of Technology in Computer Science

2015 - 2019

Guru Gobind Singh Indraprastha University, Delhi, India

CGPA: 8.37/10

Master of Science in Information Security

2022 - 2025

Indira Gandhi National Open University, Delhi, India

Percentage: 69.86%
